### Children's Special

### Health Care Services

**CSHCS**

**Diaper  
Depot**

The Diaper Depot is a service provided by the staff at Macomb County Health Department that works within the CSHCS program. The Diaper Depot was a suggestion from family members that we were able to implement for approximately 3 years now.

This service is solely supported with donations. If you find the need for assistance with diapers for your child a simple form can be completed by any community agency or you can call 586-466-6855 and ask any MCHD/CSHCS staff to assist you. Once the referral information is submitted please call MCHD/CHSCS to arrange for pick up of your diapers.

The Diaper Depot is for Emergency Assistance only. We have diapers from newborns thru adulthood, as well as blue pads and incontinent supplies.
