

Health
Department

June 16, 2020

The Macomb County Health Department recently received a donation of 3,800 7.5 oz. bottles of hand sanitizer from the CDC Foundation. The CDC Foundation is an independent entity that works to mobilize philanthropic and private sector resources to support the Center for Disease Control and Prevention's critical health protection work. The hand sanitizer will be used to protect employees and clients of the Health Department from the spread of COVID-19. Pictured with the donated hand sanitizer are Health Department staff including April DeWeese, emergency preparedness coordinator (left), and William Ridella, director/health officer (right).
